

„My name is Erik Vaněk and I help organizations **achieve ambitious goals** by collaborative innovation through **empathy-driven design**.“

Experience

Freelance service designer

april 2023 – now

Partnering with clients from diverse fields to **facilitate collaborative and creative processes** to help them achieve their goals. Building on top of **human-centered design** with a strong focus on agile delivery, solid research foundation and fast concept validation to speed up feedback process.

JINAG

Infarm GmbH

may 2018 – february 2023

Pursued my long-time passion for hydroponic plant production by joining Infarm on its mission to deploy **global network of hydroponic farms**. Contributed as an engineer, team lead, designer and a product manager during company's more than 10x growth in less than 3 years.
